## CHIC, THEATRICAL, *warm*

The Toren is prominently placed amongst the grand 17th century canal houses of the Keizergracht. They form a perfect backdrop to the striking transformation of the hotel. Well known interior designer Wim van de Oudeweetering took charge of creating a chic, theatrical and slightly mystical ambience, in which style, warmth and comfort unite. The 38 guest rooms are all different and vary from small and elegant to spacious and stunningly beautiful. The choice of room resides with the guests; all will find however a hotel atmosphere which inspires feelings of relaxation and well being.
